Re: Letter of Endorsement

Dear Projects Abroad:

Working with interns from Project Abroad has been educational for both of us. Each intern in his/her own capacity brought with them superb skills and resources. Even the high school interns were top notch and contributed to our firm. The university and post graduate level interns were qualified to work with any firm in the international community. Project Abroad should be proud of its selection criteria and the results.

Our firm focuses on M&As and IPOs. In addition, as the Foreign Legal Consultant, I work on funding and start-up companies in need of financial support. The firm's attorneys are the best China has to offer and are not shy in asking the interns to participate at all levels of business transactions. I have never been let down by an intern. On the contrary, my business client's enjoy working with the teams and our reputation is enhanced by them. An effort is made to tailor projects for the interns in accordance with their personal education specialty and goals. This allows the interns to grow in the field of their choice. In addition, introduction to Chinese business and social customs is emphasized so the interns may return with knowledge that is immediately useful in their respective countries.

I am at your service to respond to any questions you are future interns may have. The interns that have worked with our firm have been excellent, enthusiastic and beneficial. We look forward to a long term relationship with Projects Abroad and future interns.

Sincerely,

James M. Fones, Bs (Hons), JD, LL.M
CDR USN(Ret.)
